The HOLD UP® Story

For years, suspender wearers have had to contend with clip-on suspenders that kept slipping off their pants. Many wearers attempted to bend the metal clips to improve the gripping power, but this “quick fix” seldom worked.

Driven by the frustration of inefficient clips that constantly let go, Sal Herman (now known as “The Suspender King”) applied a little American ingenuity to create a solution...... the “No-Slip® Suspender Clip”. The clip features a single, needle-sharp pin in the center of the clasp, which pierces and locks into the waistband, without cutting or damaging the fabric and it will never, ever slip off your pants.

This latest catalog contains a variety of new additions in the “No-Buzz™” Airport Friendly Suspenders. See page 26. We are also introducing the Under-Ups™ in black webbing. See page 13.

Don’t forget to check out all of your favorite styles as we have brought out new colors in some of them as well.

! NEW PRODUCTS
DO YOUR SUSPENDERS KEEP SLIPPING OFF YOUR PANTS???

HoldUp® Suspenders feature our exclusive, patented, ‘NO-SLIP® SUSPENDER CLIP’.

They will never slip, slide or fly off, no matter how much you bend or twist! **The secret of the clip is the center pin**, which pierces the fabric like a needle, locking into the waistband without cutting or damaging the fabric!

The innovative new slant-face design of our patented clip minimizes the “flip open” problem that occasionally occurs when sliding against the back of a seat.

The Patented Clips Come With Our Unique ‘No-Slip®’ Guarantee
SLIPPING OFF YOUR PANTS???
CLIPS, YOUR PROBLEMS ARE OVER!

Many of our new designs feature our newly patented composite gripper clasp...the harder you pull, the tighter it grips. They are available in black, beige blue or red.

The versatility of the plastic clasp makes it suitable for use on a variety of products, from nylon snow pants to delicate bed sheets, as well as an airport friendly metal-free suspender.

To purchase individual clips, see page 20.

Tidbits & Tips for Wearing Suspenders

☞ The physique of a typical suspender wearer (male or female) is wider shoulders with narrower hips and no behind, so belts are useless in holding up pants. Suspenders provide a classic, comfortable and stylish way to hold pants in place.

☞ Never wear a belt and suspenders at the same time.

☞ Choose a variety of suspender colors that match your different shirts and suits. Also include basic colors, i.e. black, gray or blue that go with everything. For stronger accents, choose burgundy, a pattern or a jacquard. Choose the clip finish to match your jewelry (silver or gold).

☞ Attach your suspenders before putting on your pants so you can better adjust the location of the straps. The proper way to wear the straps is to make sure they are parallel from waistband to shoulder.

☞ Provide suitable storage for your suspenders so that they are easy to see, easy to hang, and easy to remove. (see the Hang-Up™ on page 18)
Under-Ups™ The Invisible Undergarment Suspenders

Suspenders Throughout History

Although it is assumed that the French invented braces around the time of the French Revolution, there are several versions of how suspenders were introduced. There is the story of a local eccentric in Firth, Scotland, named Davie Taylor, who, along with his young draper apprentice, fashioned a bib and brace sort of clasp for hooking his britches up. In 1896, this apprentice, Andrew Thomson, and a young man named James Dreever, filed a patent in California. Historians believe that this patent appeared so close to the time that suspenders first appeared that it may have had a major influence on suspender design.

The French did wear strips of ribbon fixed into buttonholes, called ‘bretelles’ around the time of the French Revolution. It is said that Napoleon had a pair decorated with bumblebees, a symbol of his native Corsica. In the US, suspenders have a distinguished history too. Benjamin Franklin popularized what were called ‘gallowses’ from 1736, and in 1871 one of the first patents for braces was issued to Samuel Clemens, better known now as Mark Twain. The first gallowses had an H back, but in the 18th century they crossed over the back in an X. In 1850, the Y back was developed.

Although the first patent for metal clip-on braces was issued in 1894, it took until 1996 for a non-slip clip design to be patented by Sal Herman and introduced by the Hold-Up Suspender Company.

Sheet Stay-Downs™
(Patent Pending)

Short Quad Style
(mattress shown upside-down)

Long Dual Style
(mattress shown upside-down)

We created the answer to keeping bedsheets taut and in place with our new patent pending Sheet Stay-Downs™. Unlike other sheet suspenders, ours feature the patented no-slip® gripper clasps™ as well as our unique patented Velcro® type tension adjusting system. No matter how you toss or turn, Sheet Stay-Downs™ will keep your fitted sheets in place. They are offered in either a short “quad” style or in a long “dual” style.

The shorter “quad” style fits diagonally across each corner under the mattress to secure the sheet. The longer “dual” style secures the sheets by crisscrossing underneath the mattress. The tension is adjusted after the clasps are fastened so that one person can easily attach either style without lifting the mattress (instructions included).

THE HIP-CLIP®

The Hip-Clip® suspender, also known as the “trucker” suspender, is preferred by truckers because the clips are located on the side, completely eliminating the possibility of the clips flipping open when sliding into a seat. Also prevents the clips from digging into the belly. Elastic straps crisscross the back, so it feels like wearing a shoulder holster more than a suspender.

Resembles a shoulder holster and is worn like a vest

Inspired by the ‘spit and polish’ look of military dress, Hold-Up Suspender Company proudly introduces...

**SHIRT STAY-DOWNS™**

The main problem with all other shirt stays is that the clips slip off too easily from either the shirt or the socks. This problem has been eliminated with Hold-Ups™ patented metal or plastic clip. The metal clip features the locking center pin and the plastic clip is cam-activated, which means the harder you pull, the tighter it grips.

The super soft black elastic and the exclusive velcro® length adjusting system makes Shirt Stay-Downs™ both comfortable and easy to wear. Imagine dancing the wildest boogie without the fear of your shirt tails untucking! Eliminates that ‘spare tire’ look around the middle when the shirt pulls out of the pants. Available in either “Y” style or stirrup style.

Made in U.S.A.

**Only $21.95/pair**

*Perfect for all occasions when you need to be well-groomed and neat!*
Hold-Down™ Biker Stirrups

Presenting...The innovative new Hold-Down™ Biker Stirrups

**HOLD-DOWN™ Biker Stirrups ............... $23.95/Pair**

2” Wide stirrup with 1 inch securing heel strap and jumbo “no-slip®” clip in black or nickel.

Tired of constantly pulling your pants legs down while cruising or having your stirrups drag while walking? The new Hold-Down™ Biker stirrups solves both problems with its design. Made in U.S.A.

The back heel strap secures the stirrup to the boot, making it comfortable while riding and preventing the stirrup from dragging when walking.

(Shown with nickel clips.)

The unique design also allows you to shorten the stirrup length for walking, simply by sliding the clip down the side of the loop.

(Shown with black clips.)

Avoid the danger of diverting your attention when riding.

_Ride safely... with Hold-Down™ Biker Stirrups!_

Features our jumbo no-slip® clip, with locking center pin.

“They are “First Class” all the way - A #11 out of a possible 10.”
James A. Holdin; Chehalis, WA

“The concept that they would not only not slip from pants...so far they have been a pleasant surprise...they fit a larger man so well.”
Gerald R. Hand; Utica, MI

“Long time coming! It’s time we have a dependable suspender!!! Definitely...are reasonably priced for what they do for you. Keep up the great work.”
Okey Mullins; Madison Hgts, MI

“They do what you want them to do. They work for you.”
Forrest Ringhauser,
Jerseyville, IL

“Superior design and quality all around. I have owned many suspenders and experimented with them. Hold-Ups are a dream come true!”
Barry L. Stackhouse,
Elizabethtown, PA

We Get Letters!

“You design clearly shows how and why they work. I’m very happy with the pair I have and wouldn’t trade them for a bushel basket of the other styles”
William Menold; Dunlap, IL

“I am very pleased with the 2 pair of suspenders I have purchased. The no-slip is great! The suspenders stay on my suit as well as heavy work pants. I would strongly recommend the purchase of these suspenders. Keep up the good work!”
Dave Hammaker; Martinsburg, PA
